Dear Principal,

Asia-Pacific Mathematical Olympiad for Primary Schools (APMOPS) 2010

Singapore International School (SIS) will be co-hosting the Asia-Pacific Mathematical Olympiad for Primary Schools (APMOPS) as the competition's Hong Kong overseas centre for the 9th year.

As with previous years, the objective of the competition organised by Hwa Chong Institution, Singapore (HCI), is to stimulate excitement and enthusiasm in Mathematics among young children. The competition questions, in English and Traditional Chinese, are pitched to challenge participants in higher order Mathematics concept and skills. This is the 4th year the competition is offered in Traditional Chinese. Last year, the competition attracted about 150 entries from local and international schools in Hong Kong.

There are two rounds to the Olympiad. The First Round will be held at SIS on **Saturday 24 April 2010**. Selected top individual candidates from the First Round will be invited to HCI to participate in the Invitation Round to be held on **Saturday 29 May 2010**. In the Invitation Round, the students will compete with their peers from Australia, Brunei, China, Hong Kong, Indonesia, India, Malaysia, New Zealand, South Korea, Singapore, Taiwan and the Philippines.

We are inviting all primary schools in Hong Kong to participate in this First Round Competition. Schools are encouraged to send as many participants as possible.

The closing date for the submission of Registration Forms is **12 March 2010**. An application fee of HK\$160 per entry is charged. Late entries received from between **13 March – 19 March** will be charged HK\$180. Registration forms received after 19 March 2010 will not be accepted.

Details of the competition are attached for your reference. This letter, together with the details attached, can also be downloaded at www.singapore.edu.hk.

We are also very glad to inform you that our school will be holding our 2nd Open House on the same day between 9.30 a.m. to 1 p.m. Students will be showcasing their projects and other achievements accomplished in this academic year.
